

# Artur Eldib

30 years old  
Product Designer - Brazil

Living in Florianópolis/Brazil with wife and son, I'm always trying to improve professionally and as a human being.

I love creating products, specially the ones that have a real purpose behind it, from Strategy and User Experience to UI Design and Motion UI.

I've been a nerd since 1999, but working with it since 2012 for startups all over the world.

## WORK EXPERIENCE

NOW	<b>Dubsmash</b>	<b>Mobile Designer</b>
	<b>Toptal</b> Since 2016	<b>Product Designer</b> Providing services for Toptal's clients as a Product Designer.
	<b>Melewi.net</b> At home and coworking spaces	<b>UX Designer</b> Been working with Melewi's distributed team for over 2 months only. It has been an incredible experience to see their process on working with a distributed team, however their required working times (3am to 8am) hasn't been very healthy to me and my family.
2013-2016	<b>GetChute.com</b> San Francisco & Itapema (Brasil) 3 years	<b>Product Designer</b> Chute is a Y-Combinator startup — a tool for the travel industry to gather photos from social media users.  Beside the experience as a Product Designer, I had the opportunity to help start an office in Brazil, foment the culture and help the communication between offices.
2013	<b>Gauge</b> São Paulo / Brazil 1 year	<b>Product Designer</b> I worked as a Product Designer and had great experience on designing on huge platforms for clients like Embraer and Pageseguro.
2012	<b>LOV (Dentsu)</b> São Paulo / Brazil 6 months	<b>Junior Designer</b> The tech arm for the Dentsu Group, Lov is a Digital Agency. I joined the company to create digital campaigns for brands like Sony and Nissin.
2012	<b>Razorfish</b> São Paulo / Brazil 2 months	<b>Freelance Project</b> I was hired to help in a huge Samsung campaign for the 2012 Olympics. Time of big hustles, but very successful in the end.
2012	<b>R/GA</b> São Paulo / Brazil 3 months	<b>Design Internship</b> It was a 3 months intership program at this amazing company that despite coming from the advertising industry, it's one of the most innovative companies today.  Clients I worked with while there: TIM and Mastercard.

## EDUCATION

2010 - 2012	<b>Miami Ad School</b> São Paulo / Brazil 2 years	<b>Art Direction focused on advertising</b> Came back to Brazil and joined the 2 year Art Direction program of Miami Ad School.  I learned how to have and refine ideas, how to consume culture and the importance of aesthetics.
2007 to 2010	<b>Bond University</b> Gold Coast / Australia	<b>Bachelor of Business Communication/Advertising</b> Culturally rich period for the opportunity to exchange ideas with people from all over the world through rich debates and many personal paradigm shifts.  I chose to study Advertising because I was fascinated at how creativity could make big impacts at people.
2005	<b>Exchange Program</b> Florida / United States	<b>Senior High School in the US</b> I had the opportunity to spend the last 6 months of my Senior High School year on the United States as an exchange experience.

Thank you!
